Slight fall in number of placements can be attributed to the rigor of Covid-19 pandemic Problems Encountered and Resources Required

(I) Problems Encountered

- One constraint is that the college is under obligation to follow the curriculum approved by the affiliating university without there being any element of discretion.
- The college, in order to meet the institutional social responsibility, has to keep the fee charged for self-finance courses under check. Consequently, it has to check the expenses as well.
- The operations in most of the areas have suffered a lot due to the prevailing pandemic conditions and restrictions as it has to most of the economy.
- Covid-19 pandemic

(II) Resources Required

- Additional building with more rooms and labs required for introducing new skill-oriented courses
- More funding from the UGC
- Reasonable hike in fee in concurrence with the university as per the need of the hour.

(B)

- **Title of the Practice**

All-out efforts for the holistic development of students

- **Goal**

The college strongly believes in the all-round development of its students. So, along with the curriculum, there are a large number of areas where students are encouraged and trained to help them develop a fuller personality. The college provides them opportunities to get exposure at state, national, international and at various other levels in order to realize their potential.

- **The Context**

Class room education alone falls short of being adequate when it comes to the all-round development of an individual. The industry and the society expect students passing out of college to be knowledgeable, skilled as well as socially responsible citizens. They should have the ability as well as the confidence to shoulder diverse responsibilities in society. It requires a lot of extra effort to produce such multi-talented and multi-dimensional individuals. The college goes all out to create and offer platforms and opportunities for its students geared towards this end.

- **The Practice**

The college takes up many activities aimed at the holistic development of our students. The major areas are as given below.

Extra Mural Activities (EMA) and Sports
