

DAV CENTENARY COLLEGE FARIDABAD

Report on Student Satisfaction Survey (SSS) Results and Details

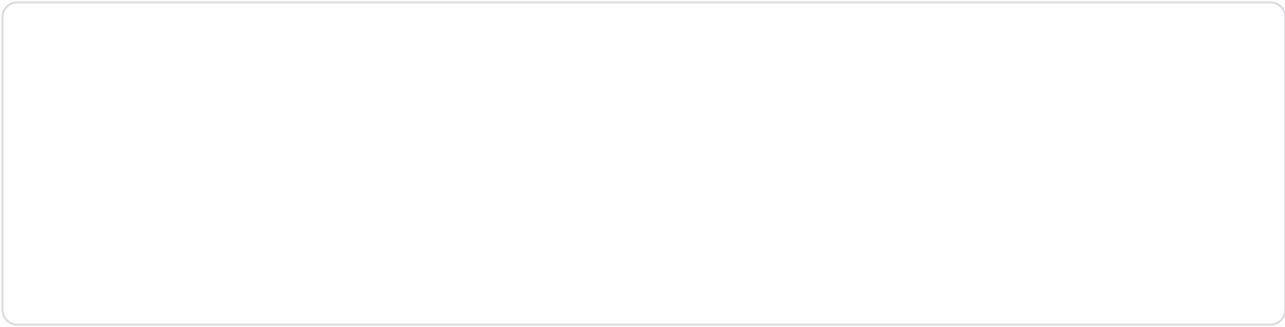

In the academic year 2022-23, our college conducted a comprehensive Student Satisfaction Survey (SSS) aimed at gauging the contentment and opinions of our student body. The survey encompassed a diverse range of parameters, aligning with the guidelines prescribed by the National Assessment and Accreditation Council (NAAC). While the primary focus was on aspects related to teaching and learning, the survey also delved into the broader spectrum of institutional infrastructure and student welfare provisions.

Survey Methodology: The SSS was administered through a meticulously designed questionnaire, incorporating elements recommended by the NAAC. This inclusive approach ensured a holistic evaluation of the student experience. The survey was distributed to the entire student cohort, resulting in a participation count of 738 students, all of whom diligently completed the questionnaire within the stipulated timeframe.

Key Survey Components:

- Teaching and Learning:** The survey delved into the effectiveness of teaching methodologies, course content relevance, and faculty-student interactions. Insights into the overall academic experience were garnered to understand the quality of education imparted.
- Institutional Infrastructure:** The survey sought student perspectives on the physical facilities and resources available on campus. Areas such as classrooms, laboratories, libraries, and technological support were scrutinized to assess their impact on the learning environment.
- Student Welfare:** A vital component, this segment of the survey evaluated various support systems provided by the institution. Aspects like counselling services, health facilities, extracurricular opportunities, and inclusivity initiatives were probed to gauge their influence on student well-being.

The detailed analysis are as follows:
